The wedding couple have a one time opportunity for 9 weeks from the wedding date to order 60 or more 4x6 prints directly from St. Louis Color, Inc. for just \$4.50 each. We highly recommend your using our services to do your final printing even if you have acquired the large files on DVD. We professionally review, refine, and print each image. This can make a huge difference – especially in large prints. Most retail outlets do not provide this quality.

Color prints from B&W images: We can usually convert B&W proof images into color prints assuming the image was actually taken in color and converted to B&W in proofing. We retain the color information and can print in color, but that entails a separate color correction and we charge \$7.00 extra for the first print. There is no extra charge to print in B&W from a color image.

Image Acquisition (High Res):

High Res images are 2400x1600 lines printable high quality up to 8x10.
These are the files edited and corrected to the degree you have contracted for – see above.

Without any print or album purchases.....\$ 65 per 100 images
With >\$350.00 print or album purchase.....\$ 50 per 100 images

Full Res images are the highest resolution we capture – as high as 4350x2900 lines – printable high quality to any size. For these files, add \$25 per 100 images if added to the contract - \$40 per 100 images if purchased after the processing has been completed.

Travel

Local Travel: Outside the core St. Louis Metropolitan area is charged at \$100.00/hour on a prorated basis - 1/2 hour of travel is charged \$50.00, for example. Sometimes it is better, even within the metropolitan area, to pay for travel time in lieu of the full photography rate if you have even a half hour of travel from one point to another planned within your wedding date. This can save you a substantial amount. This covers all personnel – usually at least two.
