This includes approximately 900 + index images on CD and a selection of 200 + online. We don't place all images online – 900 images online is too many to enjoy viewing in our experience. A 10x13" catalog proof book is \$200 extra. Also included: A 1800x1200 line hi res CD (quality printable up to 5x7) at the time of album design. These are individually color corrected images – not computer processed.

A full res (at least 3800x2500 lines) DVD is \$280 extra at the time of the album design. These images are printable to any reasonable size. They are 3-5 megs each. We recommend your using our professional service to create your large prints if you want professional quality, however.
