The Futura Bound and Leather Craftsmen albums have raised edge framing for a cover photo available as an option: \$50 for the Futura and \$75.00 for the Leather Craftsmen including the cover print. One line of embossed text for the covers are included, with a second line a \$12.00 option.

The Large Futura Bound and the Leather Craftsmen albums have approximately 120 standard matt designs they offer, but the Leather Craftsmen also allows custom design and cutting of matts at a \$16.00/page additional charge.

The Queensberry album has by far the most flexibility in design: anything that fits can be designed into each page by our graphic designers including going across the center of the spreads. Each page design is completely original – there are no standard matt designs. Even the matting can be changed from page to page to compliment the featured photos. It is an incredible album if done right.

For a \$200 flat fee we would be happy to add a lot of graphic design features into your traditional album to “Jazz it Up”.

Prices as of 3/26/08.
